RE: Monitors for the Newspaper Fund Editing Intern Programs

Students applying to the Dow Jones Newspaper Fund's intern programs must take a test as part of the application. If you would like to be a test monitor for students on your campus, please complete the form below and return it to the Newspaper Fund by June 1.

Applications, tests and posters for next summer's programs will be sent to monitors to arrive by Sept. 1. Testing date(s) can be between Sept. 1 and Nov. 1 and will be set by the monitor in keeping with the school's schedule. The deadline for submitting the tests and all other application materials is Nov. 1

Please return your response by June 1 so we can include your campus on the list of test monitors sent with the application forms. We will be posting an updated list of monitors on the Internet but your early response ensures that more students will know sooner about the opportunity you are providing.

(Please print all information and return by June 1 or respond to the e-mail or fax number above.)

_____ Yes I will be the test monitor for students on my campus for the controlled Editing. Following is my name, address and e-mail address where you can send tests and where students can reach me.

NAME _____ TITLE _____
